The resulting from error, as fraud may involve collusion, forgery, international omissions, misrepresentations, or the override of internal control.

If we conclude that the material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying truncations and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatement in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of reasonably knowledgeable user of the financial statements may be influenced. We considered quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; (ii) to evaluate the effect of any identified misstatement in the financial statements.
